DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim (s) 39 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "A computer readable medium" does not fall within at least one of the four categories of patent eligible subject matter recited in 35 U.S.C. 101 (process, machine, manufacture, or composition of matter).

The claimed invention is directed to a judicial exception to 35 U.S.C. 101 (i.e., an abstract idea, natural phenomenon, or law of nature) and is not directed to a practical application of such judicial exception (e.g., because the claim does not require any physical transformation and the invention as claimed does not produce a useful, concrete, and tangible result).

Allowable Subject Matter

2. Claim(s) 21-38 and 40 are allowed.

Response to Arguments

3. Applicant's arguments with respect to **claim(s) 21-40** have been considered but are moot in view of the new ground(s) of rejection.
